January 27, 2018

The Executive Director
Public Utilities Regulatory Commission
Ridge –Accra

Dear Sir,

RE: REQUEST FOR STAKEHOLDER SUBMISSIONS IN RESPECT OF ELECTRICITY AND WATER TARIFFS

With reference to your recent letter on the above subject, the Association of Ghana Industries (AGI) welcomes the request to submit papers for the forthcoming utility tariff review exercise.

Our submission however as an Association requires that we solicit input from our members and develop these into a proposal to the PURC. AGI will therefore like to have an extension of time for a meeting with your goodselfs to discuss some of the parameters that your outfit will consider in fixing the new tariffs.

Other issues we will like to be discussed include;

- a. The current utility tariff levels for the various consumer categories under Industry
- b. Clarity on PURC's time lines for the tariff review and subsequent implementation of new tariffs following the announcement of new electricity tariffs by H.E. the President of Ghana.

We will be grateful to have this meeting with your outfit on February 9, 2018 at 10am at AGI. This will guide AGI in the development of its proposal on the utility tariffs.

Thank you.

Yours faithfully,

Seth Twum-Akwaboah
Chief Executive Officer
